Thank you for running that test for me, I will be in touch with our engineering team and will circle back with you as soon as I can.

Stay safe,
Chris

Subject: UPDATE RE: Search results downloads still not working

Flock Safety,

I ran the exact same search again (Cam #02 McCoy Ln @ Tompson Way -EB, Images w/plates, all tags for 2/22 0830-1030).

This time Flock returned 397 objects.

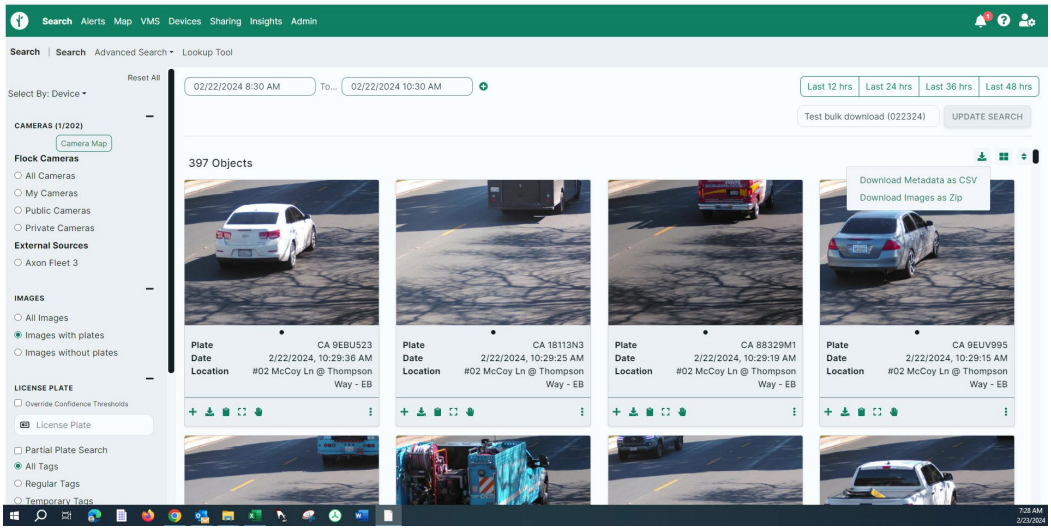
I used the slider bar on the right to repeatedly refresh until all images were populated.

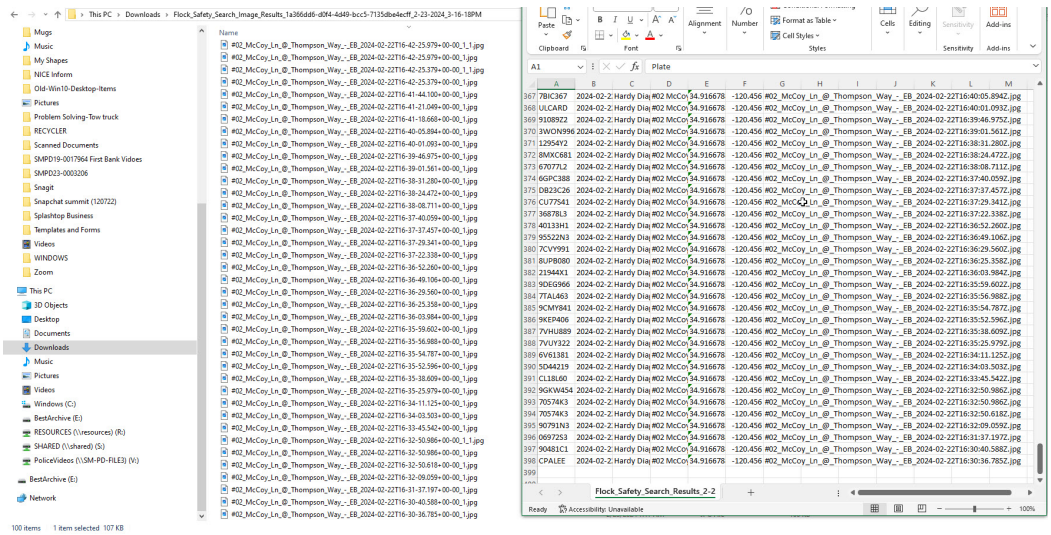
I downloaded the CSV which had 397 entries (Good!)

I downloaded the “images as zip”, only 100 images (NOT Good)

Looking at the unzipped images it appears to have only downloaded the images from 0830-0855 Hrs (1630-1655 Hrs UTC)

So, it still is not fixed.





Thank you

Flock Safety,

I will test out the download again, however, the most recent problem wasn't with the CSV download, it was with the "download images as zip" as I mentioned in my original email:

"I downloaded the CSV and it appears to have worked (386 entries in the spreadsheet)

I downloaded the "images as a zip"…..and it failed miserably. Only 28 images. "

I will test it out and let you know what my results are.

Thank you.

Good morning,

Our engineering team has made some adjustments to the CSV files and they should be downloading consistently with your search results now. Would you be able to to a test run for me and

let me know if there are any inconsistencies with the CSV file?

Stay safe,
Chris

Hi there,

Thank you for letting us know. There were some modifications to the download zip file that were recently implemented. I will take this information and reach out to our engineering team to get some answers and a resolution for you.

If I have any follow-up questions or once I get a resolution, I will be in touch.

Thank you again for bringing this to our attention and we will get a resolution as soon as we can.

Stay safe,
Chris

Subject: Search results downloads still not working

Flock Support,

Back in December 2023, Flocks Chris Howell was live viewing my screen while I demonstrated the issue I was having with the CSV and zip downloads of search results not working the way they are supposed to.

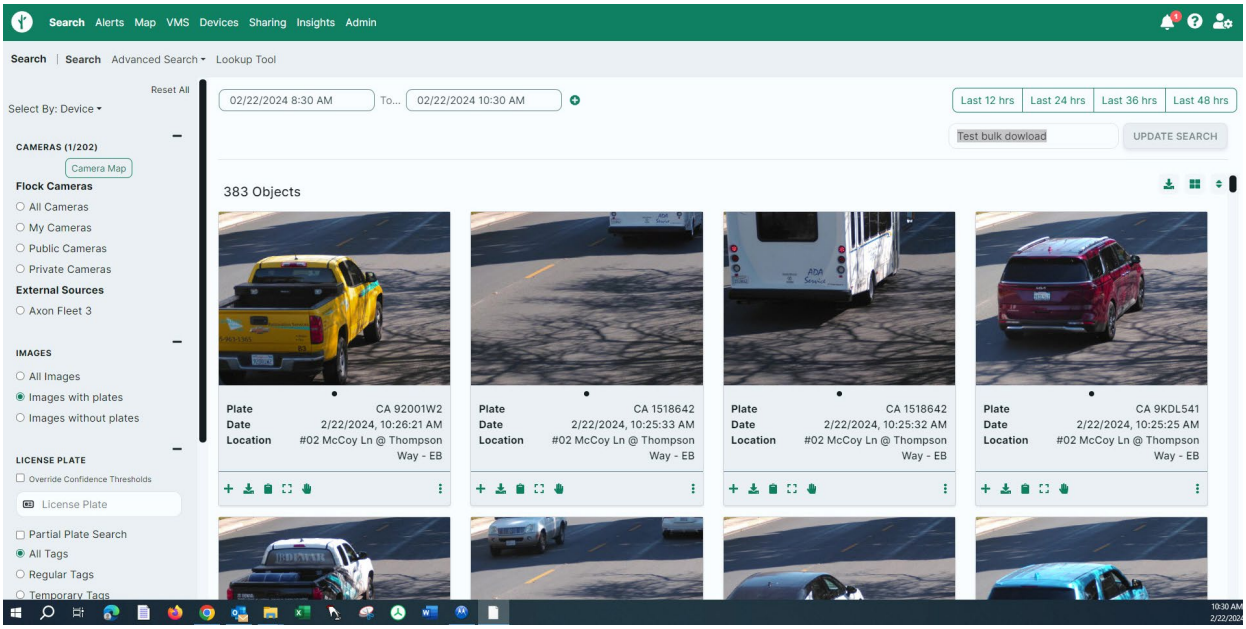
Today a detective was asking for search results from a kidnapping investigation to be downloaded for later reference. The “download images as zip” still is not working.

I ran a test to confirm this. My search had 383 objects.

I repeatedly used the slider bar on the right to finally get all the images to populate.

I downloaded the CSV and it appears to have worked (386 entries in the spreadsheet)

I downloaded the “images as a zip”…..and it failed miserably. Only 28 images.



FYI
